

Downloadable Formats

Use at Home

Use in Library

When selecting a title, you will see the “Plays on:” section. If the picture is in color, it will work on that type of computer/player.

Text Formats

Adobe Acrobat – Requires download of Adobe Reader and Adobe Digital Editions. This is the .pdf format. Adobe Reader format can be read on both PC and MAC computers.

Does not work with the Amazon Kindle. 

Mobipocket – Requires a download of their reader. Books can be read on your PC or downloaded to your PDA, Reader or Smartphone (check compatibility). You can also download directly to your PDA, Reader or Smartphone by installing the reader on your device. Does not work with the Amazon Kindle. 

Audiobooks Formats/Collections- (two types of titles Overdrive and NetLibrary.)

WMA (Windows Media Audio) most of the Overdrive and all Recorded Books audiobooks are available in this format. **Overdrive Titles:**  

MP3 This format has been added to the Overdrive collection. Can be used on PC, MAC and iPods as well as other MP3 players. **Overdrive Titles:**  

Overdrive Collection This collection can be downloaded at the library, provided your MP3 player will work with this collection (click **Test my Player** to see if your player will work)  

Recorded Books This collection can **NOT** be downloaded at the library. This collection is available through **NetLibrary** which requires you to set up a free account, and does not use your library card number as your account 

Music

WMA (Windows Media Audio) available for download to PCs and players that can play WMA formats in addition to MP3.  **Enhanced**, means there is also a document you can download- most often a CD jacket. This is usually in Adobe Reader format and cannot be viewed on a player.  

Video

WMV (Windows Media Video) available for download to PCs and players that can play WMA formats in addition to MP3.
