

# Testing Overdrive eAudio Books Download at the Library

1. Select **DOWNLOADS** Downloads on the left side of the KCLS Main Page.
2. Select **OverDrive** Overdrive.

## Check list of compatible Devices

Click **Compatible Devices** Compatible Devices in the upper left of the screen, this will display a list of MP3 players and SmartPhones that will work with the **Overdrive** download at the library.

## To Test Your Device

You can download a small sample book and music to see if your device is compatible. (from the patron computers)

1. Connect your device to one of the USB drives.
2. Click **TEST MY DEVICE** Test My Device to download a small sample book and music file. The download wizard will begin.
3. The Wizard Dialog box will display the title of the item to be downloaded.
4. Click **Next >** Next.

5. The dialog box will display all of the parts of the sample to be downloaded. The size of each part is also displayed. For the text, download both parts.

6. Click  **Next**.

7. It will begin loading the small files onto your device. The download progress will appear in the dialog box. Wait for the download to complete.

8. Click  **Finish**. You can now listen to the samples to make sure they work on your device.

9. If the download was successful, you can now search for the book you wish to download.
