

## King Co. Library Multi-lingual Storytime Grant

### Center Staff Survey

This is it: our final request for information from you who have brought this project to life for families at your Center over the past two years. Please take a few minutes to answer the questions below & to give your feedback.

1. How would you compare this year's two grant events (the center and library storytimes) with last year's events?
2. What comments have you heard from families who attended the events?
3. Do you think that the grant activities raised your families' awareness of the importance of early learning & of using one's home language within the family?
4. Did you find it easier or harder to organize and facilitate the 2 events and follow-up survey this year? Please comment about whether you received adequate support and information from King Co Library & the ESD.
5. What do you think helped attract families to attend your events?

If attendance was lower than anticipated, do you have a sense why?

6. Is your Center considering continuing this project next year after the grant ends?  
How would you make this happen?
7. What tips would you have for other HS/ECEAP centers interested in implementing a project like this?
